Rejuvenate

ENERGIZE AND ENHANCE

Bring a fresh glow, tone, and strength to the skin, while awakening senses throughout the body. This treatment focuses on sculpting and lifting while reviving the skin. Lotus extract features skin-balancing properties, helping to balance sebum production, while baobab oil works to soften the skin. Oxygen therapy and custom blends of the purest botanical ingredients renew radiance. Uplifting in every way, the results are luminous and long-lasting.

Purify

CLARIFY AND CLEANSE

A deep cleanse, this purifying facial is designed to help detoxify the skin while releasing stress, tension, and stagnation. It stimulates the body's natural lymphatic process, flushing out excess toxins from the tissues and bringing clarity to the complexion. Fo-ti is an ancient clarifying remedy used to treat numerous skin ailments such as acne, while great burdock is rich in antioxidants and is an anti-inflammatory. Our signature oxygen therapy enhances radiant skin and creates a sense of vitality for the mind, body, and spirit.

Massage and Energy Work

Inspired by the soothing rhythm of the sea and the essence of the healing nature surrounding Big Sur, our massage and energy therapies wash away the tensions of both body and mind. As in ancient practices, organic and wild-crafted herbs of eucalyptus, lavender, pine, sage, and arnica are gathered into warm poultices and oils, simultaneously easing pain and enlivening the spirit when applied to the skin. Other natural tools, such as jade and basalt sea stones, permeate even the innermost layers of muscles.

Massage and Energy Work

Zenith*

REVITALIZE AND RESTORE

Begin with an in-depth assessment with a seasoned therapist to customize your massage. Balance your musculoskeletal system and address areas of chronic tension, tightness, and bound-up connective tissue that restricts muscles from functioning in concert with each other. This specialized massage utilizes each therapist's talents and "toolbox" of modalities. While your therapist works skillfully to restore pain-free movement and improve your body's innate balance, jojoba oil deeply penetrates to soothe and soften the skin, providing an excellent moisturizing effect and adding a healthy glow.

50 Minutes \$215 | 80 Minutes \$305 | 100 Minutes \$380

Jade*

EXPLORE AND RELAX

A hot-stone massage incorporating nature's therapeutic basalt and stones made from jade, integrated with a full-body Swedish massage. Resembling the smooth cobblestones found along the California shore, basalt stones are excellent thermal insulators, helping to melt away muscle tension as the therapist glides the heated stones over the body. Jade, a stone that can be found in Big Sur, readily opens taut muscles and relieves joint pain in this deeply relaxing treatment. Feel yourself surrounded in the mineral energy of the earth while the warm stones work their magic.

80 Minutes \$330 | 100 Minutes \$405

Paradigm*

RESTORE AND RECOVER

A craniosacral therapy using a gentle, light touch to facilitate the flow of cerebrospinal fluid. This form of energy therapy shifts the mind and body into a mode of rest and recovery.

Talisman*

INVIGORATE

Herbal poultices packed with organic and wild-crafted herbs capture the essence of the healing nature surrounding Big Sur to address the body's muscles and joints. These herbs are wrapped in a canvas compress, steamed to release the aromatic and therapeutic properties, then massaged into the muscle tissue, coupled with passive yoga-like stretches and Swedish-style massage. Arnica flower calms inflammation in muscles and joints, relieving pain. Pine soothes the skin, eases breathing, activates the immune system, and increases energy. Sage stimulates the lymphatic system, boosts glandular function, and eases stiffness.

80 Minutes \$330 | 100 Minutes \$405

Restorative*

REPLENISH AND ENERGIZE

A soft, healing touch with medium pressure, combined with energy work that allows for a relaxing massage that re-energizes your flow. High-oleic sunflower oil hydrates and locks in moisture, and contains Omega-3, Omega-6 and Omega-9, which help prevent and reduce skin inflammation.

Balance*

ESCAPE AND RELEASE STRESS

Reflexology uses pressure-point work within the reflex zones of the feet, leading to full-body balance and calm. Each point on the foot corresponds to specific areas of the body, allowing for a comprehensive yet targeted approach to physical and mental stress release.

Balinese

RELIEVE PAIN AND REVITALIZE

After beginning with a foot bath ritual to allow tension to first dissolve from the feet, this traditional Balinese healing therapy combines stretching and long therapeutic strokes in a flowing sequence—relieving muscle pain, unraveling stress and improving blood flow.

AstroSoma

When an aspect or archetype of our nature has been "hurt," it tends to compensate—remaining hidden, stuck, or projected, and frequently attracting lessons for further learning and growth. AstroSoma is a cutting-edge modality that combines a gentle energy muscle testing with the guidance of one's astrology natal chart to bring awareness and transformation, leading to permanent improvement in one's life, self, and goals. Couples sessions in both modalities aim to design a healthy and co-creative goal, followed by a process that informs what is at the root of mutual dissonances, revitalizing the relationship.

Transformation Kinesiology

We embody a holographic system which is, by nature, biochemical electromagnetic and intelligent—this system is intimately connected to our emotional life. Transformation Kinesiology (TK) is a modality based on Ageless Wisdom that combines a gentle energy muscle testing with an inquiry process aimed at awakening soul consciousness. It rewires the gaps that were formed in the subconscious by trauma, bringing to light its subsequent negative conclusions and beliefs, promoting well-being, healing, and joy in a seamless, transformative, and permanent way.
